

DAILY PRODUCTIVITY & FOCUS REPORT

Date: 2026-08-28 | Powered by Gemini 3.6 Flash

1. Application Breakdown

Application / Window Task	Duration (Minutes)
ApplicationFrameHost.exe	1865.2 min
chrome.exe	1060.2 min
explorer.exe	495.6 min
LockApp.exe	261.7 min
MicrosoftEdge.exe	142.6 min
VideoEditor.exe	25.4 min
AvastUI.exe	15.3 min
vsvc-free-video-editor-11.1.7.713-installer.tmp	7.0 min

2. AI Coaching & Corrective Actions

1. Core Wins & Academic Progress

- High academic effort focused on 9th-grade core subjects, specifically Physics (Chapters 2 and 3), Mathematics (Chapters 4 and 5), and English.
- Accumulated over 17 hours of direct interaction with primary textbook PDFs, demonstrating strong dedication to core coursework.
- Major focus was directed at Physics Chapter 3 (over 6 hours) and Math Chapter 4 (nearly 4.5 hours), indicating concentrated subject review.

2. Distraction Points & Time Wasters

- Massive volume of time logged in Google Chrome (1,060.2 minutes) without corresponding study titles, pointing to untracked web browsing or background distractions.
- Significant idle time recorded, including over 4 hours on the lock screen and nearly 5 hours on Program Manager / explorer.exe.
- Entertainment consumption during active hours, specifically over 2 hours logged in the Movies & TV application.

3. Daily Focus Score (/10)

6.5/10

4. Actionable Improvements for Tomorrow

- Audit Chrome usage by closing non-essential tabs and using a site blocker during scheduled study blocks.
- Shut down or sleep the computer when stepping away to prevent hours of passive idle time from inflating system tracking.
- Restrict media applications like Movies & TV until all daily academic PDF reading targets are complete.
- Adopt a 50-minute study and 10-minute break cycle to maintain high focus across long physics and math sessions.
