## 2. Performance Review & Coaching Verdict

STATUS: NEEDS IMPROVEMENT / TRY HARDER  
OVERALL\_SCORE: 72/100

PILLAR\_BREAKDOWN:

- Digital Habits Score: 28/35 | Earned a 4 out of 5 star rating with strong math session focus despite minor YouTube distraction loops.
- Academic & Practice Tests Score: 29/45 | Achieved an overall academic average of 64.4 percent, led by Physics but weighed down by Chemistry.
- Parental & Supplementary Review Score: 15/20 | Logged 100 percent plan completion daily, though father feedback noted a need for sharper deadline vigilance.

KEY\_WEEKLY\_HIGHLIGHTS:

- Maintained deep study focus by spending over 50 minutes on Grade 9 Chapter 4 Math exercises.
- Secured a strong top academic score in Physics at 78.3 percent.
- Consistently completed all planned daily study modules across all tracker logs.

AREAS\_FOR\_GROWTH:

- Immediate academic intervention and review needed in Chemistry after scoring 47.5 percent.
- Better deadline planning and capping YouTube screen time under 20 minutes to eliminate distraction traps.

OFFICIAL\_REWARD\_VERDICT:

Muhammad Rohaan earned a composite score of 72 out of 100 this week, placing him just short of the 75-point reward threshold. While Rohaan showed commendable focus during math quests and consistency in daily self-tracking, lower performance in school Chemistry and feedback regarding deadline planning mean the weekly reward is not unlocked this cycle. By raising test scores in core science subjects and exercising better YouTube control next week, Rohaan can comfortably achieve eligible reward status!
