

KUDOZ AI : WEEKLY PERFORMANCE REPORT (V2)

Student: Muhammad Rohaan | Issued: Thursday, September 03, 2026

OFFICIAL STATUS:
NEEDS IMPROVEMENT

COMPOSITE SCORE:
74/100

1. Weekly Academic & Practice Test Scorecard

Category	Subject	Obtained	Total	Percentage
Academy	Physics	18	20	90%
Academy	English	49	75	65.3%
Academy	Urdu	52	75	69.3%

2. Performance Review & Coaching Verdict

STATUS: NEEDS IMPROVEMENT
OVERALL_SCORE: 74/100

PILLAR_BREAKDOWN:

- Digital Habits Score: 30/35 | Excellent focus during PDF study sessions, though periodically distracted by YouTube video rabbit holes.
- Academic & Practice Tests Score: 33/45 | Strong performance in Physics is offset by lower scores in English and Urdu academy tests.
- Parental & Supplementary Review Score: 11/20 | Daily tracker compliance was good, but parent feedback noted serious concerns regarding planning, focus, and feedback accuracy.

KEY_WEEKLY_HIGHLIGHTS:

- Outstanding academic achievement in Physics with a score of 90 percent.
- High focus digital study sessions achieved, earning a top rating as Atomic Chemistry Champion.
- Consistent completion of daily tracker logs and self-planning entries across the entire week.

AREAS_FOR_GROWTH:

- Boost performance in English and Urdu by allocating dedicated study blocks to language arts.
- Address parental feedback by taking daily plans seriously, avoiding shortcuts, and strictly capping YouTube usage.

OFFICIAL_REWARD_VERDICT:

Muhammad Rohaan demonstrated great dedication in his science reading sessions and achieved an excellent result in Physics this week. However, he is not eligible for a reward this period due to an overall score below the 75 threshold and a severe parental flag regarding daily planning discipline and YouTube distractions. To earn the reward next week, Rohaan needs to raise his English and Urdu scores, limit video distractions during study hours, and demonstrate genuine commitment to his daily routine and parent feedback.
